Updated Agency List for Reporting Templates

Due to the amount of panel billings that have been reported by panel law firms under the category of 'Other Eligible Agencies', an exercise was undertaken to identify which agencies have been reported under this category.

Following on from this review, the following agencies have been included in the reporting templates available from ProcurePoint (<https://procurepoint.nsw.gov.au/2015068>). Any future billings for these agencies are required to be reported against the specific agency – not 'Other Eligible Agencies'.
